MEDIACOM

10/100Mbps Auto-Negotiation Ethernet Adapter

Description：

M-NTPCI100 is a PCI2.2 compliant 10/100M auto-negotiation Ethernet adapter. It meets ACPI power management standards and has a remote boot function. M-NTPCI100 provides a reliable and efficient hardware solution for wired networking to your PC.

Features：

- Complies with IEEE 802.3 10BASE-T and IEEE 802.3u 100BASE-TX standards
- Complies with PCI and PCI2.2 standards
- Supports 32-bit PCI-Bus Revision2.1
- Supports clock frequency of up to 40MHz
- Auto-negotiation 10/100Mbps LAN port
- Supports full-duplex and half-duplex modes
- ACPI power management

Specification：

Chipset	ADMTek AN983B
Standard and Protocol	IEEE802.3　　IEEE802.3u IEEE802.3x
BUS Type	32bit /33MHz PCI BUS
Network Interface	RJ45
I/O Address	System auto assign
Disconnected (IRO)	System auto assign
Half/Full Duplex Transfer Rate	10/20Mbps 100/200Mbps
Operating Temperature	0℃~40℃(32F-112F)
Operating Humidity	10%-90% (non-condensing)
